Goodbye

I have to say, I never liked you much anyway I never cared for the things you'd say You talk a lot of s**t my friend And I hate to think, that all we had was tied up in drink We never thought that one day we'll say that I know it's the end Cause if I feel I'm falling way to fast Its just another day and now its just our last As I look back now, tears in my eyes Time to say our last goodbye

Lives divide, time destroys it, can't be denied And just you're left with the scars inside Knowing that the pain has gone

Cause if I feel, if I feel Its just another day, another day As I look back now, tears in my eyes Time to say our last goodbye

I look back now, tears in my eyes Time to say our last goodbye

As I look back now, tears in my eyes Hear me calling "Time to say our last goodbye"

I look back now, tears in my eyes Time to say our last goodbye
