

Look What You Started

Scanners

It such a dangerous game to play
How long will you survive
But for you there is no other way
It such a dangerous game to play
How long will you survive
But for you there is no other way
It makes you feel alive

Oh oh
Look what you've started
Oh oh
Look what you started now
You can't slow down

You know i said i loved you so
I can't remember why
And i could never let you go
I can't remember why

Oh oh
Look what you started
Oh oh
Look what you started now
You can't slow down

Just tell me it's alright
