## **Look What You Started**

It such a dangerous game to play How long will you survive But for you there is no other way It such a dangerous game to play How long will you survive But for you there is no other way It makes you feel alive

Oh oh Look what you've started Oh oh Look what you started now You can't slow down

You know i said i loved you so I can't remember why And i could never let you go I can't remember why

Oh oh Look what you started Oh oh Look what you started now You can't slow down

Just tell me it's alright
