

Sick Love

Scanners

This is a lifetime because I need him so
I'd give it all away just to have him here with me
I know, I know if he runs I'll be too slow
I know, I know if he said jump, I'd ask how high to go

And it's a lifeline on a drowning day
Cos I'm out to sea but he saves me from the waves
I know, I know he's like a drug I take for pain
I know, I know but I'm addicted now I need him everyday
Too much is not enough, of this sick love
Too much is not enough, when you play your games
I know, no shame!

And it's a lifetime because I need him so
I'd give it all away just to have him here with me
Too much is not enough, of this sick love
Too much is not enough, when you play your games
Too much is not enough to take, you've give upped your love san
e
It's all you've ever learned from here down to your bone
You like to fill your heart with pain
It keeps your ego sane with pledges down your throat
You live a lonely soul
Too much is not enough
Of this sick, sick love
Too much is not enough
