

2012 - The Demise Of The 5th Sun

Scar Symmetry

Pinnacle of evolution
The end of linear time
Progress or termination
Cosmic ray mutation

It's the question that burns inside
Will we perish or rise with the tide
When the waters of consequence
Comes rushing forth

For the lines on the fractal wave
Fits the course of history
They're created to work as one 'til the end

A dimensional shift
Leap in consciousness
Or a dire destiny
Asteroid fatality

It's the question that burns inside
Will we perish or rise with the tide
When the waters of consequence
Comes rushing forth

For the lines on the fractal wave
Fits the course of history
They're created to work as one 'til the end
At a time when terrestrial
And galactic grids align
The demise in 2012 realized

Pinnacle of evolution, the end of linear time
Progress or termination
Cosmic ray mutation
A dimensional shift, leap in consciousness
Or a dire destiny, asteroid fatality

For the lines on the fractal wave
Fits the course of history
They're created to work as one 'til the end
When the winter solstice comes
Actualizing the prophecy
The demise in 2012 realized
