Someday

Scarface

I know god is watching from above Sometimes I wonder what I'd do without his love And although life is full of adversities I know he's with me, he's with me I know someday, someday, someday... Someday, someday, someday... Someday, someday, someday He'll come to get me

I wanna walk with you, follow in your footsteps Talk with you to find out where my good's kept I been gone away from home for so long Seems like everything I try to do without you go wrong I'm confused about a lot of things, but not with my fate So I'm depending on your holy ghost to guide me the way See I'm a sinner in the 3rd degree Ain't afraid to admit it, scause I seen niggas worse than me Who am I to judge a man when I'm a man myself In the dark, trying to get me some help I went from pawn to king, king back to pawn Doing my best to try to ease out the storm I know that every tunnel's got an end and a light And I prepared a new beginning in Christ My life is like a jigsaw dulling in time And as I'm thumbing through this jigsaw puzzle of mine

I know god is watching from above Sometimes I wonder what I'd do without his love And although life is full of adversities I know he's with me, he's with me I know someday, someday, someday... Someday, someday, someday... Someday, someday, someday He'll come to get me

It seems like every other Wednesday I'm attending a wake But I don't question you, I know that's your way, ok I know we living for the minute and there's a moment in time We've got to leave here, cause that's your design And nothing lasts forever, not even spirit, only your word That's what I live by, 'cause that's what I heard I wasn't there when you rose from the dead or parted the sea I never seen you, but still I believe How you explain the moon, the sky, the stars and the rain The sun and the sea, the earth without form facing the deep In darkness challenging the powers that be It's impossible for scientists to make up the seas, to make up the trees So why we turn our backs on the truth? It's heaven or hell, the point we seem to hide from the youth And I was singing this morning, got touched by the spirit So I wrote it down for the homies to hear it

I know god is watching from above Sometimes I wonder what I'd do without his love And although life is full of adversities I know he's with me, he's with me I know someday, someday, someday... Someday, someday, someday... Someday, someday, someday He'll come to get me

Lord I know that I've been wrong They say a man is lost without a prayer, without a song So I'm singing on my knees cause I believe you'll keep me strong Until it's time for me to bring it home But until it's time for me to bring it home I'll be out in these streets, hanging in the hood Even gangsters need to pray, cause when I pray it's understood That I got flaws about myself, I can't make it by myself I need the heaven's help, I want to follow in your foot steps Done seen the strongest man bow down to a higher power And given all his glory to god cause god towers Over all, and in that I save this prayer For all my homies that's been trapped out there That's stuck in their ways, it's different now than back in the days So fuck what they say, cause ain't no coming back from the grave So when the gun goes pop and the lights go out Then you'll understand what I'm talking about

I know god is watching from above Sometimes I wonder what I'd do without his love And although life is full of adversities I know he's with me, he's with me I know someday, someday, someday... Someday, someday, someday... Someday, someday, someday He'll come to get me I know someday, someday, someday... Someday, someday, someday... Someday, someday, someday...

I just want to be your solider I just want to be your best soul, woooo lord
