So Long, Scarecrow

So long, scarecrow So long bad mood So long prescription pills So long bad blues Oh, we don't care anymore

So long, liar What transpired What did you expect? Kindness for tread neglect Oh oh We don't care anymore

So long, lonesome Know what you've done Smoking a cigarette Praying that we'll forget Oh, we don't care anymore

So long, scarecrow Sorry you're sad You say you lost everything Some things you never had Oh, we don't care anymore We don't care anymore Scarling.
