

# Chemicals

## Scars on Broadway

I smacked your face you fell in love when  
I said fuck your mom  
I looked at you said it's all over.  
I turned around and walked away and you  
Just grabbed my arm  
I looked at you and said  
I can't stay sober.

Come eat some chemicals with me  
Come eat some chemicals  
Come eat some chemicals with me  
Come eat some chemicals

Madness, feeling scared  
Looking around and nobody's there  
When I say fuck the world  
Let's get ready to rock  
As I piss on your face  
While you suck on my cock

Madness, no one cared  
Looking around and nobody's there  
When I say fuck the world  
Let's get ready to rock  
As I piss on your face  
While you suck on my cock

Oh maybe baby won't you rape me  
Won't you fantasize  
About the time when we were lovers  
I try to phone you try to warn you  
But no compromise  
I grabbed your ass under the cover

Come eat some chemicals with me  
Come eat some chemicals  
Come eat some chemicals with me  
Come eat some chemicals

Madness, feeling scared  
Looking around and nobody there  
When I say fuck the world  
Let's get ready to rock  
I piss on your face  
While you suck on my cock

Madness, no one cared  
Looking around and nobody's there  
When I say fuck the world  
Let's get ready to rock  
As I piss on your face  
While you suck on my cock

Come eat some chemicals with me  
Come eat some chemicals  
Come eat some chemicals with me  
Come eat some chemicals

Come eat some chemicals with me  
Come eat some chemicals  
Come eat some chemicals with me  
Come eat some chemicals

Come eat some chemicals with me  
Come eat some chemicals  
Come eat some chemicals with me  
Come eat some chemicals

Madness, feeling scared  
Looking around and nobody there  
When I say fuck the world  
Let's get ready to rock  
As I piss on your face  
While you suck on my cock

Madness, no one cared  
Looking around and nobody's there  
When I say fuck the world  
Let's get ready to rock  
As I piss on your face  
While you suck on my cock

Come eat some chemicals with me  
Come eat some chemicals  
Come eat some chemicals with me  
Come eat some chemicals

Come eat some chemicals with me  
Come eat some chemicals  
Come eat some chemicals with me  
Come eat some chemicals
