

Chemicals

Scars on Broadway

I smacked your face you fell in love when
I said fuck your mom
I looked at you said it's all over.
I turned around and walked away and you
Just grabbed my arm
I looked at you and said
I can't stay sober.

Come eat some chemicals with me
Come eat some chemicals
Come eat some chemicals with me
Come eat some chemicals

Madness, feeling scared
Looking around and nobody's there
When I say fuck the world
Let's get ready to rock
As I piss on your face
While you suck on my cock

Madness, no one cared
Looking around and nobody's there
When I say fuck the world
Let's get ready to rock
As I piss on your face
While you suck on my cock

Oh maybe baby won't you rape me
Won't you fantasize
About the time when we were lovers
I try to phone you try to warn you
But no compromise
I grabbed your ass under the cover

Come eat some chemicals with me
Come eat some chemicals
Come eat some chemicals with me
Come eat some chemicals

Madness, feeling scared
Looking around and nobody there
When I say fuck the world
Let's get ready to rock
I piss on your face
While you suck on my cock

Madness, no one cared
Looking around and nobody's there
When I say fuck the world
Let's get ready to rock
As I piss on your face
While you suck on my cock

Come eat some chemicals with me
Come eat some chemicals
Come eat some chemicals with me
Come eat some chemicals

Come eat some chemicals with me
Come eat some chemicals
Come eat some chemicals with me
Come eat some chemicals

Come eat some chemicals with me
Come eat some chemicals
Come eat some chemicals with me
Come eat some chemicals

Madness, feeling scared
Looking around and nobody there
When I say fuck the world
Let's get ready to rock
As I piss on your face
While you suck on my cock

Madness, no one cared
Looking around and nobody's there
When I say fuck the world
Let's get ready to rock
As I piss on your face
While you suck on my cock

Come eat some chemicals with me
Come eat some chemicals
Come eat some chemicals with me
Come eat some chemicals

Come eat some chemicals with me
Come eat some chemicals
Come eat some chemicals with me
Come eat some chemicals
