Chemicals

Scars on Broadway

I smacked your face you fell in love when I said fuck your mom I looked at you said it's all over. I turned around and walked away and you Just grabbed my arm I looked at you and said I can't stay sober.

Come eat some chemicals with me Come eat some chemicals Come eat some chemicals with me Come eat some chemicals

Madness, feeling scared Looking around and nobody's there When I say fuck the world Let's get ready to rock As I piss on your face While you suck on my cock

Madness, no one cared Looking around and nobody's there When I say fuck the world Let's get ready to rock As I piss on your face While you suck on my cock

Oh maybe baby won't you rape me Won't you fantasize About the time when we were lovers I try to phone you try to warn you But no compromise I grabbed your ass under the cover

Come eat some chemicals with me Come eat some chemicals Come eat some chemicals with me Come eat some chemicals

Madness, feeling scared Looking around and nobody there When I say fuck the world Let's get ready to rock I piss on your face While you suck on my cock

Madness, no one cared Looking around and nobody's there When I say fuck the world Let's get ready to rock As I piss on your face While you suck on my cock

Come eat some chemicals with me Come eat some chemicals Come eat some chemicals with me Come eat some chemicals Come eat some chemicals with me Come eat some chemicals Come eat some chemicals with me Come eat some chemicals

Come eat some chemicals with me Come eat some chemicals Come eat some chemicals with me Come eat some chemicals

Madness, feeling scared Looking around and nobody there When I say fuck the world Let's get ready to rock As I piss on your face While you suck on my cock

Madness, no one cared Looking around and nobody's there When I say fuck the world Let's get ready to rock As I piss on your face While you suck on my cock

Come eat some chemicals with me Come eat some chemicals Come eat some chemicals with me Come eat some chemicals

Come eat some chemicals with me Come eat some chemicals Come eat some chemicals with me Come eat some chemicals
