

## Blood Runs Forever

Scary Kids Scaring Kids

He sees what's beneath her skin, he sees through her soul  
Blue eyes and empty veins, her fortune unfolds  
She steps out of her body that lies on the floor

Rise, rise from the ashes  
Sink teeth into her, she becomes the cure  
Blood runs forever, blood runs forever

Full moon illuminates the streets breathing fire  
The dead come together to drink their desires  
They march down the allies, the devil's parade  
More of the turbulence that causes disaster  
More of the chaos erasing the borders  
More than confusion and all that she fears  
The dark side is coming, the dark side is...

Rise, rise from the ashes  
Sink teeth into her, she becomes the cure  
Blood runs forever, blood runs forever  
Blood runs forever...

She's giving it all away (She's all the way there)  
She's giving it all (She is prepared)  
To take her place, to follow it along  
She steps into the dark tonight

Rise, rise from the ashes  
Sink teeth into her, she becomes the cure  
Blood runs forever, blood runs forever

Rise, rise from the ashes  
Sink teeth into her, she becomes the cure  
Blood runs forever, blood runs forever

Blood runs forever  
Blood runs forever  
Blood runs forever...
