

Free Again

Scary Kids Scaring Kids

Hey! are we out of our minds?
We cant live this way forever, forever
So run, run with me from the ordinary
Its our time to escape, lose ourselves

If we could find a way to break this chain
Regain the natural cycle
Leave your riches behind
We'll be richer inside
If we could find the strength to go our own way,
To go our own way
It will take your breath away,
Will take your breath away

Hey! are we out of our minds?
We cant live this way forever, forever
So run, run with me from the ordinary
Come on! it's our time to escape
Lose ourselves

We've finally found a way to make the change
We'll make the change together
Old ways been left behind
Chains will loosen over time

We've finally found the strength to go our own way,
To go our own way
No longer are we confined
The power of resolution shines

Now we are free again,
We are free again
We are free again

Do i have your attention?
Look what we can create
It will take your breath away,
Will take your breath away, away
Do I have your attention?
Now's our time to escape
Find the strength to go our own way

Now we are free again,
We are free again, again
Now we are free again,
We are free again
Again, again,
We are free again
