

The Deep End

Scary Kids Scaring Kids

And don't tell me, I'm afraid of waking up alone
But it's waking up to find you've gone
Well you make it clear
I had my chances
Only one way left to go
So I'll follow it down

She goes straight,
Straight for the deep end
Doesn't hesitate to dive right in
Be careful now
Be careful now

So she's trading my love for comfort
Gives it all away
So much for that happy ending
Now you make it clear
You've got your options
Only one way left to go
So I'll follow it down

She can't hold her own!
Who would have known!
She is misery's company!
She's got no place to go!
No place to call home!
She's got misery's company!

She goes straight,
Straight for the deep end
Doesn't hesitate to dive right in
Be careful now
Be careful now
Be careful!
Be careful now

She only comes to me in my dreams
So sleep becomes routine
It's not healthy, it's what makes you right
It's not healthy, it's what makes you...

She only comes to me in my dreams
So sleep becomes addicting
It's not healthy, it's what makes you right
It's not healthy, it's what makes you...

Hold her strings to haunt my dreams
It's not healthy, it's what makes you right
It's not healthy, it's what makes you...

She goes straight,
Straight for the deep end
Doesn't hesitate to dive right in
She goes straight,
Straight for the deep end
Doesn't hesitate to dive right in
Be careful now,

Be careful now,
Be careful!
