

## Distance

Schiller

I'm caught in the midst of your caution  
You breathe and I exhale  
If there's one thing I would clarify  
One little thing I would justify  
Is my love for you  
My love for you

I can go the distance  
I can be your choice  
I will be your medicine  
Just when you need more  
If loving is your target  
Then aim yourself at me  
Cause I can go the distance  
If you believe  
If you believe
