Dream of you

I've been here all the time As far as I know doing right I've always waited for the moment That you would come through my door But this brought loneliness so far I lay my hand onto my heart Is this the life I want to live Is this the dream I had of you

But this brought loneliness so far I lay my hand onto my heart Is this the life I want to live Is this the dream I had of you The dream I had of you

The dream I had of you

Now I'm standing here alone Waiting on my own For something that will fill the emptiness Inside the moment that you mind But this is loneliness I know I lay my hand onto my soul Is this what life has got to give Is this the dream I had of you

The dream I had of you

But this is loneliness I know I lay my hand onto my soul Is this what life has got to give Is this the dream The dream I had of you Schiller
