

Camera Shy

School Boy Humor

There is no hope for you and me
Cause this long drive might be (the last time I take the wheel)
You're not sure how you feel

I think the spot light
Always gives you stage fright
Wish this song would end right
Wish that you would stop
Making my head spin
Over and over, it's over, but what if we,
If we just pretend

You'll play the love and baby I'll play the lead
So strike a pose and fake a smile you're coming with me
I'll strum my guitar cause girl I know how you are
You're just a little bit camera shy but you're still a star

"This isn't right," you said
It takes some time you know
But try again tonight
This fight is getting old

I think the spot light
Always gives you stage fright
Wish this song would end right
Wish that you would stop
Making my head spin

We're young but old enough to build up
For it wasn't false love
Wish this song would end,
I wish this song would end

You'll play the love and baby I'll play the lead
So strike a pose and fake a smile you're coming with me
I'll strum my guitar cause girl I know how you are
You're just a little bit camera shy but you're still a star

We're done tonight
We gotta pick it up slowly
Can I hear your voice?
What a perfect story
Can I pick you up?
You can be my star
My spot light's on, we're close for the final scene
Your scene,
The final scene,
The final scene

You'll play the love and baby I'll play the lead
So strike a pose and fake a smile you're coming with me
I'll strum my guitar cause girl I know how you are
You're just a little bit camera shy but you're still a star
You're just a little bit camera shy but you're still a star
You're just a little bit camera shy but you're still a star
