

# Good To Meet You

## School Boy Humor

We made lists of things to do,  
And at the top of mine was to be there for you  
And we can't forget,  
How to love and how to seize the moment

People come and they may come,  
Times may change but I'm not leaving you,  
When the world comes crashing down around you,  
I'll be there to lie next to you

And its good, good to meet you,  
After all we have been through,  
I'd race across the country just to be with you  
It's good, good to see you  
Never said I didn't believe you  
This is where the road has lead me I knew I'd see you soon

When we say we need to grow  
We try to leave the only things that we know  
And time, and time we still regret  
Leaving the ones we love we try to forget  
City, can't relieve the way we feel  
When we try be that we do is like stand  
Lights himself why keep me warm? (cause that's what friends are for)

And its good, good to meet you,  
After all we have been through,  
I'd race across the country just to be with you  
It's good, good to see you  
Never said I didn't believe you  
This is where the road has lead me I knew I'd see you soon

And when I'm falling  
Wont you come and pick me up  
Baby, I'm calling, yeah  
I'm calling, yeah  
When I'm falling, won't you come and pick me up  
Baby, I'm calling, yeah  
I'm calling, yeah

People come and they may go,  
Times may change  
But I'm not leaving you  
When the world comes crashing down  
Around you I'll be, I'll be there, there

And when I'm calling, wont you come and pick me up,  
Baby, I'm calling, yeah  
I'm calling, yeah

And its good, good to meet you  
After all we have been through,  
I'd race across the country just be be with you  
And it's good, good to see you I never said I didn't believe you  
This is where the road has lead me  
I knew I'd see you soon.
