

New Kids In Town

School Is Cool

Come on up above the ground
Come and hear that brand new sound
Come one, come all and take a bow
Say hi to the new kids in town

If you've got a point to make
Come and say it to my face
I'll bring you down onto the ground
We'll see who's got a big mouth now

We're all dancing to a tune
It's hip it's fast it's sharp it's new
Life is tough you're outta luck
If you can't seem to keep up

It's just the flipside of the same old coin
It's just the fruit of the madman's loins
Lalalaa

Come on up above the ground
Come and hear that brand new sound
Come one, come all and take a bow
Say hi to the new kids in town

A variation to the same old tune
Don't tell us what we can or cannot do
Lalalaa

Give it time (18x)
