

## Fountain

School Of Fish

Its 7:22 took the yellow elevator  
The cameras always on it doesn't own the world  
The statue's looking tired though it would never say so  
I'm standing in the cell but you could never tell  
And if a mother tied me over and I'm falling down a mountain  
And god is in the room and I'm floating in a fountain of water  
akes sense

In a chair someone stares was found in an hour  
With a kind of liquid smile that doesn't mean a thing  
The truth is almost here can only stay a minute

Now I can find the lights  
You said you would be right back  
You know this candle only brings me down cause I see someone's  
life  
Underneath my own and it's not what I am looking for anymore

Will the world make sense  
Will the world make sense for a little while  
Will the world make sense  
Will the world make sense for a little while  
For a little while  
For a little while  
Oh oh oh
