

Speechless

School Of Fish

I'm flying over the city
In a suit and tie
And don't my dog look pretty
But that's just a dog's life
The world outside is red
But my room is blue
And it will keep me save
But I don't know from who

And sometimes I find what I need
Sometimes I don't find anything
But I'm waiting on that day to come
I'm waiting on my heart to sing
Now I'm speechless
I am tongue-tied
I am speechless
And it's all bottled up inside

Another drink
Would make me feel much worse
But maybe that's just what I need
To break this awful curse
And in my one room apartment
High above this town
I'm always trying to use
The things that will bring me down

It's all bottled up inside
And I feel half alive
I can't open my eyes
I'm getting lost in this disguise

I am speechless
I am tongue-tied
I am speechless
And it's all bottled up inside
