

Low Times

School of Seven Bells

Who watched me lose my life?
To a thief without a care
Who let my heart fall?
Hard to see, to disappear
Who was just a place to hide from my
Just a cheap turf with a bigger house
Low low low low low low low low low low times
Low low low low low low low low low low times

You watched me lose my life
To a thief without a care
You let my heart fall
Hard to see, to disappear
Low low low low low low low low low low times
Low low low low low low low low low low times

When you know there are those that weight bedroom we fight
Low low low low low low low low low low times
When you know there are those that weight bedroom we fight
You are guilty painting of our
Wrapped on to our face well you are
You are guilty painting of our
Wrapped on to our face well you are
You are guilty painting of our
Wrapped on to our face well you are
You are guilty painting of our
