

Reappear

School of Seven Bells

You know it's time to find a way to reappear back into your life

When all you see and all you love is back again under the veil
Will you find you've been estranged from your own heart
It's just a way to hide
And to the pain you thought you lost
You found again someone else
Somewhere

You know it's time to reappear
You know it's time to reappear
Into your life
