

The Klaw

Schoolyard Heroes

Take your time on this hurried task
Whatever method seems too fast
It seems so hard, just to qualify
As all my problems just multiply

You open up
And I pretend to give a fuck
You open up
And I pretend to give a fuck

My pretty face just can't be yours
Sometimes I smile, they are so young
Just one of many, slim to none
Sometimes I smile, they are so young

Doesn't matter what I say
(I don't care just what you say)
A pity you will never change
(As long I get what I want in the end)
(2x)

One last request
Before you go promise me it
One last request
Before you go promise me it
