

# They Live

## Schoolyard Heroes

They Live

We live like creatures  
We love like homicide  
Well write your future  
Control both space and time

We control reality  
We control your chemistry, baby  
Rearrange anatomy  
Deep within these shadows were alive

Look at all these imbeciles  
Shaking hands while decomposing  
Weve crunched these numbers  
And weve found that your soul is null and void.

Come with me you pretty thing  
And well celebrate with amputations  
Weve wasted everything  
And now theyve come to take our children.  
Your secrets safe with me  
Ill take it to the grave, now baby.  
God help you please my dear  
Im gonna take your dead soul away.

Below these sutures  
Hate flows like cyanide.  
Destroy your future  
Consume your everything.

We destroy reality  
We control your chemistry, baby.  
Rearrange mortality  
What we do is not your concern

We live like creatures  
We love like homicide  
Well write your future  
Control both space and time  
We live like creatures  
We love like homicide  
We live like creatures

When your heart broke off  
Your words were cut off  
Your conscience shut off  
Remorse is useless now

God doesnt want us back now, baby
