

# Cold Heart

Schuyler Fisk

Not my favorite anymore anymore  
I swear you're doing things to even up the score  
I'm sorry dear  
I'm sorry  
But someone else will love me

Didn't have this [?]  
You didn't have this [?]  
Cold heart

I don't wanna see you  
I don't wanna need to  
because everything is wrong  
What am I waiting on?

It's hard for me to sleep  
But you can't keep me  
It's hard for me to breathe  
But you can't keep me

I only showed up cuz they said you wouldn't be there  
You came hand in hand with her just to be seen  
Where do you we go do we go  
do we go from here?  
Where do we go from here?  
From here

Cuz I don't wanna see you  
I don't wanna need to  
Cuz everything is wrong  
What am I waiting on?

Its hard for me to sleep  
But you can't keep me  
Its hard for me to breathe  
But you can't keep me

You hold your breathe waiting U  
You'll stay underwater  
Cuz we won't say it again and  
I know its for the better  
For the better  
For the better

I know you've been hurtin'  
I've been hurtin' too  
So where do we go from here?  
From here?

Its hard for me to sleep  
But you can't keep me  
Its hard for me to breathe  
But you can't keep me  
It's hard for me to breathe  
But you can't keep me  
It's hard for me to sleep  
But you can't keep me
