

On Your Arm

Schuyler Fisk

You always felt like come
you knew my favourite song
i love the way you say my name
i love just about everything

Wake up to your morning face
love you a little bit more anyday
love the way you walking to the room
it just a little things

cause on your arm i could fall asleep
and on your arm its the best of me
and on your arm i go anywhere
cause i know that you be there
count an million ways to stay
on your arm

i cant believe you belong to me
i guess im musted on something right
how did we get here and where do we stop
to follow my heart

and on your arm i could fall asleep
and on your arm its the best of me
and on your arm i go anywhere
cause i know that you be there
count an million ways to stay
on your arm

ooh my love
did you take me
ooh my love
just take me on your arm
on your arm

cause on your arm i could fall asleep
and on your arm its the best of me
and on your arm i go anywhere
cause i know that you be there
count an million ways to stay
on your arm 3x
