

# Paperweight

Schuyler Fisk

Been up all night staring at you  
Wondering what's on your mind  
I've been this way with so many before  
But this feels like the first time  
You want the sunrise to go back to bed  
I want to make you laugh

Mess up my bed with me  
Kick off the covers I'm waiting

Every word you say I think  
I should write down  
I don't want to forget come daylight

Happy to lay here just happy to be here  
I'm happy to know you  
Play me a song your newest one  
Please leave your taste on my tongue  
Paperweight on my back  
Cover me like a blanket

Mess up my bed with me  
Kick off the covers I'm waiting

And every word you say I think  
I should write down  
I don't to forget come daylight

And no need to worry  
That's wastin' time  
And no need to wonder  
What's been on my mind  
It's you  
It's you  
It's you

Every word you say I think  
I should write down  
Don't want to forget come daylight

And I give up I'll let you win  
You win 'cause I'm not counting  
You made it back to sleep again  
Wonder what you're dreaming
