

# What Good Is Love

Schuyler Fisk

You'd be mine  
Hand in hand in the ticket line  
Upside down on a carnival ride  
That's how it is  
In my mind

We drive the coast  
Windows down, blast the radio  
The ocean glows  
And the full moon shines  
That's how it goes  
In my mind

Don't wake me up  
Now that you're gone  
Even the sun is turning blue  
What good is love  
If you're not here for me  
To give it to  
What good is love  
Without you

We'll sail away  
Even better stay in bed all day  
You tell me everything will be okay  
That's how it plays  
In my mind

Don't wake me up  
Now that you're gone  
Even the sun is turning blue  
What good is love  
If you're not here for me  
To give it to  
What good is love  
Without you

What good is love

We'd have time  
A whole lot of time

Don't wake me up  
Now that you're gone  
Even the sun is turning blue  
What good is love  
If you're not here for me  
To give it to

And after everything that  
We've been through  
What good is love  
Without you
