

Skin Tight

Scissor Sisters

And when you get tired
Of holding me tight
Remember it's how I stay alive
When we come down
Off our high for the night
You don't let go

And if you're feeling too close
Then we're doing all right
Got you under my clothes
Take you out tonight
Take you out tonight

You're so skin tight
You're never close enough
You're so skin tight
Wrap me in your love
So skin tight

Nothing else sliding
Between you and me
What's symbiotic will always be
Surrounding each other for eternity
And we won't let go

So it gets a little hot
But the temperature's right
I'll take everything you got
Cause you're always in my sight
Yeah, you're always in my sight

You're so skin tight
You're never close enough
You're so skin tight
Wrap me in your love
So skin tight
You fit me like a glove
You're so skin tight
You're never close enough

Anything less
And you'd be
Too far away
I can't peel it back
Can't peel it back
I can't peel it back

Cause your skin tight
Fit me like a glove
Skin tight
Wrap me in your love
You're skin tight
Fit me like a glove
Skin tight
Wrap me in your love
