999 (Call the Police)

Scooter

Above the ceiling
Driving you insane
Pack my bag
And hit the next plane
Lift your hands higher
Wave 'em proud
Shot, shoot, Shotta
Shout it out loud

Even when the sun is blocked by clouds
It always finds its way though
Even in the darkest of the nights
I will run with you
When hope is gone
We'll find another way
And we'll be standing strong
Together

Yeah

Get out, stay out
I call the police

Even when the sun is blocked by clouds
It always finds its way though
Even in the darkest of the nights
I will run with you
When hope is gone
We'll find another way
And we'll be standing strong
Together

Yeah

Get out, stay out
I call the police

Gotta have the sound
Find my true release
Get things off my mind
And call the police
Take you outta limit
And take the whole crowd
Shot, shoot, Shotta
Shout it out loud
