

# Close Your Eyes

Scooter

Yeah, we're on the run like everyday  
Another place to stay  
The time has come, we start it right tonight  
That's what I say  
Another chick to spend the night  
Then driving all day  
Check in, check out 'nother city  
Another play

If you close your eyes  
Then I can take you all the way  
Let me close your eyes  
And I will take it all the way

If you close your eyes  
Then I can take you all the way  
Let me close your eyes  
And I will take it all the way

Yeah, you wanna see what's up tonight  
So let me take you there  
A neverending party you can join us  
If you dare  
Straight on the floor, I wanna see your hands  
Up in the air  
So let the aftershow begin as  
I declare  
yeah  
you can join us  
If you dare  
yeah  
So let the aftershow begin as  
I declare

If you close your eyes  
Then I can take you all the way  
Let me close your eyes  
And I will take it all the way

If you close your eyes  
Then I can take you all the way  
Let me close your eyes  
And I will take it all the way

If you close your eyes  
Then I can take you all the way  
Let me close your eyes  
And I will take it all the way

If you close your eyes  
Then I can take you all the way
