

# Home Again

Scooter

Every night a different place  
Different crowd with different faces  
Giving us the best time of our lives  
Every year another song  
You are here to sing along  
Giving us the best on every night  
Feels like we're home again  
Feels like we're home again  
Cause everytime we meet  
You knock us off our feet  
Feels like we're home again  
Feels like we're home again  
It's time to feel the bass  
Pumping in your face

Here it comes  
Back on the place  
Once I start  
You don't want me to stop  
Yeah

I got this certain feeling  
Rolling round my brain  
As I jump into gear  
And hit the fast lane  
Music's so uplifting  
When I'm above the crowd  
I love it when the bass drum's kickin' loud  
I like my night enhanced  
I raise my hands  
Can't even comprehend  
Don't want this night to end  
Do it as we listen to the sound of the beat  
I won't trick  
But you're in for a treat

Every night a different place  
Different crowd with different faces  
Giving us the best time of our lives  
Every year another song  
You are here to sing along  
Giving us the best on every night  
Feels like we're home again  
Feels like we're home again  
Cause everytime we meet  
You know us off our feet  
Feels like we're home again  
Feels like we're home again  
It's time to feel the bass  
Pumping in your face  
Che - che - che - check

Whatever you do  
You have to be true  
I've got a tunes for a trip to the moon  
Yeah

I've been out all week  
To have a good time  
Now I'm here  
And things get off my mind  
Check the line-up  
See who's gonna play  
It's better than your favourite DJ
