

## Listen

## Scooter

I sing a song for you  
Please, listen  
It's the only way I could speak to you  
Let your feelings stay so hidden  
It's the only way I could speak to you

You got the chance when I'm coming up faster  
Down on the floor to the rhythm and beat  
You got the chance when I'm coming up faster  
Down on the floor if you blow up the heat  
You got the chance when I'm coming up faster  
Down on the floor to the rhythm and beat  
You got the chance when I'm coming up faster  
Down on, down on the floor, up the heat

I sing a song for you  
Please, listen  
It's the only way I could speak to you  
Let your feelings stay so hidden  
It's the only way I could speak to you

You got the chance when I'm coming up faster  
Down on the floor to the rhythm and beat  
You got the chance when I'm coming up faster  
Down on the floor if you blow up the heat  
You got the chance when I'm coming up faster  
Down on the floor to the rhythm and beat  
You got the chance when I'm coming up faster  
Down on, down on the floor, up the heat

I sing a song for you  
Please, listen  
It's the only way I could speak to you  
Let your feelings stay so hidden  
It's the only way I could speak to you

I sing a song for you  
Please, listen  
It's the only way I could speak to you
