

Listen

Scooter

I sing a song for you
Please, listen
It's the only way I could speak to you
Let your feelings stay so hidden
It's the only way I could speak to you

You got the chance when I'm coming up faster
Down on the floor to the rhythm and beat
You got the chance when I'm coming up faster
Down on the floor if you blow up the heat
You got the chance when I'm coming up faster
Down on the floor to the rhythm and beat
You got the chance when I'm coming up faster
Down on, down on the floor, up the heat

I sing a song for you
Please, listen
It's the only way I could speak to you
Let your feelings stay so hidden
It's the only way I could speak to you

You got the chance when I'm coming up faster
Down on the floor to the rhythm and beat
You got the chance when I'm coming up faster
Down on the floor if you blow up the heat
You got the chance when I'm coming up faster
Down on the floor to the rhythm and beat
You got the chance when I'm coming up faster
Down on, down on the floor, up the heat

I sing a song for you
Please, listen
It's the only way I could speak to you
Let your feelings stay so hidden
It's the only way I could speak to you

I sing a song for you
Please, listen
It's the only way I could speak to you
