

# No Way to Hide

Scooter

We want to party party, no way to hide  
You just follow follow what you feel inside  
No one looked as I walked by  
Just an invitation would've been just fine  
Said 'no' to him again and again  
First he took my heart then he ran

No one looked as I walked by  
Just an invitation would've been just fine  
Said 'no' to him again and again  
First he took my heart then he ran

La la la la la, la la la la la la la la  
La la la la la, la la la la la la la la

Come on!  
Yea!

Stop and con when I drop and you run, yea  
I'm spittin so fast and the party is mine  
The party is mine, the party is mine  
The party is mine

We want to party party, no way to hide  
You just follow follow what you feel inside  
Can't stop now now, out of my way  
Going for it 24h/day

No one looked as I walked by  
Just an invitation would've been just fine  
Said 'no' to him again and again  
First he took my heart then he ran

La la la la la, la la la la la la la la  
La la la la la, la la la la la la la la

Stand back!  
I spin the world around  
With my mic in the ground  
Stand back!  
I spin the world around and around and around and around and around y  
ea

La la la la la, la la la la la la la la  
La la la la la, la la la la la la la la

We want to party party, no way to hide  
You just follow follow what you feel inside  
Can't stop now now, out of my way  
Going for it 24h/day
