

# See Your Smile

Scooter

I wanna see the rainbow high in the sky  
I wanna see you and me on a bird flying away  
Then I hope to see your smile every night and day

Gotta gotta get down, right round to the ground  
Gotta gotta get down on the floor gimme more  
Gotta gotta get hot, shell shock, let's rock  
Gotta gotta get right to the ground

Gotta gotta get down, right round to the ground  
Gotta gotta get down on the floor gimme more  
Gotta gotta get hot, shell shock, let's rock  
Gotta gotta get right to the ground

I wanna see the rainbow high in the sky  
I wanna see you and me on a bird flying away  
I wanna see the rainbow high in the sky  
I wanna see you and me on a bird flying away  
Then I hope to see your smile every night and day

I wanna see the rainbow high in the sky  
I wanna see you and me on a bird flying away  
Then I hope to see your smile every night and day

Gotta gotta get down, right round to the ground  
Gotta gotta get down on the floor gimme more  
Gotta gotta get hot, shell shock, let's rock  
Gotta gotta get right to the ground

Gotta gotta get down, right round to the ground  
Gotta gotta get down on the floor gimme more  
Gotta gotta get hot, shell shock, let's rock  
Gotta gotta get right to the ground

I wanna see the rainbow high in the sky  
I wanna see you and me on a bird flying away  
Then I hope to see your smile every night and day

I wanna see the rainbow high in the sky  
I wanna see you and me on a bird flying away  
Then I hope to see your smile every night and day  
I wanna make love to you, lead you to tomorrow  
I wanna feel the sunshine after the rain  
We can reach out for the sky  
No more pain and no more sorrow  
For you I am the one that  
I could never be, never be

I wanna see the rainbow high in the sky  
I wanna see you and me on a bird flying away  
Then I hope to see your smile every night and day
