

We can stare at the stars to know where we are  
And if we lose our way we know what to say  
And if we come undone, we follow the sun  
We can gaze at the sky as long as we try  
Yes we can stay ayo we can go  
But I need to know  
Where do we go  
Yes we can stay ayo we can go  
But I need to know  
Where do we go from here

Guess who's back with the top notch melody  
Some high class beats and that next level energy  
Guess who's back with the future sounds  
Some heavy lines when the rhytm pounds  
Guess who's back with the top notch melody  
Some high class beats and that next level energy  
Guess who's back and is here to stay  
With a punchline for everybody grossing his way

Where do we go from here  
Where do we go from here

We can stare at the stars to know where we are  
And if we lose our way we know what to say  
And if we come undone, we follow the sun  
We can gaze at the sky as long as we try  
Yes we can stay ayo we can go  
But I need to know  
Where do we go  
Yes we can stay ayo we can go  
But I need to know  
Where do we go from here

Guess who's back with the top notch melody  
Some high class beats and that next level energy  
Guess who's back with the future sounds  
Some heavy lines when the rhytm pounds  
Guess who's back with the top notch melody  
Some high class beats and that next level energy  
Guess who's back and is here to stay  
With a punchline for everybody grossing his way

Where do we go from here

Yes we can stay ayo we can go  
But I need to know  
Where do we go  
Yes we can stay ayo we can go  
But I need to know  
Where do we go from here
