

# The Birdwatcher

Scooter

Make some noise for the birdwatcher  
Let your mind slip and slide  
Triggernator hot water  
You better lock your daughter

It's deep dark dirty  
And it ain't too late  
Take a look at your watch  
And let me tell it straight  
Move your hands down low  
And move your hands up high  
Move your structure to the ground  
And move your structure to the sky

Got the some beef, prove it  
Got a problem, don't excuse it  
Got a gun in my pocket

And you know that I would use it  
Move your hands down low  
And move your hands up high  
Move you structure to the ground

And move your structure to the sky  
Loud and clear  
We got the sound  
Watch your step

On frozen ground  
Move your hands down low  
And move your hands up high  
Move your structure to the ground  
And move your structure to the sky
