Scooter

```
The first time, I've never seen this place,
the first time, I ever saw your face.
The first time, I've never seen this place,
the first time, I ever saw your face.
The first time, I ever saw your face.
The first time, I ever saw your face.
The first time, I ever seen this place,
the first time, I ever saw your face.
The first time, I ever saw your face.
The first time, I ve never seen this place,
the first time, I ever saw your face.
The first time, I ever saw your face.
The first time, I ever saw your face.
The first time, I ever seen this place,
the first time, I ever seen this place,
the first time, I ever saw your face.
The first time, I ever saw your face.
The first time, I ever saw your face.
