

What Time Is Love?

Scooter

The notes I throw yo, gotta watch what I speak
Grab this week for I teach and I reach
The positive why, the way of life it's how I'm livin
To get hyped on rhythm, KLF is the crew yea yea yea
Desire to rhyme, I just wanna feel it
Packed to react, enough is enough
Let me ask you a question: what time is love?

What time is love?
What time is love?
(What time is love?)
What time is love?

The kind of chatter, I tell it already
When I'm done, this calls for anesthetic
Got to step to let an emcee
How many fact will kick HD?
A wannabe Barbie, all time sucker
You knew the time, I never stutter
V3, a emcee mic yea
Pass the mic; What time is love?

What time is love?
What time is love?
(What time is love?)
What time is love?

What time is love?
