

Let's Rock!

Scorpions

She looked like mother nature
Dressed up in black
She had a ying and a yang
Tattooed on her back
A pretty little blonde on a big white horse
I wanted a ride she said of course

Let's rock let's roll
The party's on we're having a ball
We're gonna leave a sting in your soul
We put the rock back in the roll
Let's rock let's roll

She looked like a dancer
And god only knows
She must have had a thing
For scorpions
To make little love wouldn't be no crime
And what came next really blew my mind

Let's rock let's roll
The party's on we're having a ball
We're gonna leave a sting in your soul
We put rock back in the roll
Let's rock let's roll

Coming together
Rocking forever let's rock
The party's on
All night long let's rock
