Love Is Blind

Scorpions

Close my eyes Didn't want to see Believe the lies You said to me She played a game I played along But now I know I was not the only one She treated me Just like a fool I was in love you Share my soul The way you touched I never knew before Can't ask you out Don't close the door I wanna feel you I wanna touch you I wanna feel you By my side Love is Love is blind Don't you know It's a state of mind Love is Love is blind Love is blind, baby Didn't know But you never life But something told me I was right inside Things you said They felt so good They ask your brain was Oh was so cute But then I got Behind the scene I wanna go But I can't leave The way you touched I never knew before Can't ask you out now Don't close the door I wanna feel you I wanna touch you I wanna feel you By my side Love is Love is blind Don't you know It's a state of mind Love is Love is blind Love is blind, baby Love is Love is blind Love is
