

Time Will Call Your Name

Scorpions

1. They're days that make you fly
They're days you wanna cry
Sometimes the walls come tumbling down
They're moments in the dark
When pain just floods your heart
And you surrender one more time

Just take a walk out in the rain (just take a walk out in the rain)
With every drop that falls you know the sun will shine again

2. They're days you're naturally high
They're days you wanna die
Sometimes your world goes down in flames
They're moments deep in love
But when it breaks your heart
You just surrender one more time

Just take a walk out in the rain (just take a walk out in the rain)
With every step you make you learn that life means constant change

R: Tomorrow's all that counts as life goes round'n round
You gotta draw the line goodbye yesterday
Tomorrow's all that counts as life goes round'n round
And if you keep the faith time will call your name

Take a walk out in the rain (take a walk out in the rain)
With every breath you take you feel your soul is free again

R: Tomorrow's all that counts...
