

# I Hate You

Scott Henderson

Spoken-

Sweetheart, you know it's been awhile -  
Something that's been on my mind that I really needed to express to you....  
I must tell you how I really feel....

Oh you are an angel  
An angel sent from hell  
Your mouth like a sailor  
Your cheap cosmetic smell

Darling you are a loser  
It's you I love to kill

Darling you ruined my life  
So I hate you and I always will

From your implants that failed  
To the milkman that you nailed  
It's been you, it's been you  
That's tried to make me lose my mind

Well, you come on so tough  
And then you can't get it up  
And if you do  
Then it's still hard to find

You cheap little ho'  
Slippin' out the back door  
You go out with any man  
For a nickel or a dime

You no workin bum  
You never made me come  
Yeah, I faked it  
Each and every time  
Oh you are a big fat couch-sittin' sport-watchin' alky  
Corona's by the keg

Oh darlin' I'll stop my drinking  
If you'll only shave your legs

It's too bad your mama wasn't on the pill

Leave my mother out of this

Darling you ruined my life  
So I hate you and I always will  
Darling you ruined my life  
So I hate you and I always will

You ruined my life  
So I hate you and I always will

Sweetheart, I hate you

I hate you too, baby
