

# Xanax

Scott Henderson

Should I let my mind explode  
Should I fall on my knees and pray  
I can't take this don't you know  
But I think I found a way

Gimme one or two  
Pink or white medication  
Gimme one or two or just five  
Gimme eight or nine  
Artificial relaxation  
C'mon gimme one or two to stay alive

Every midnite is my noon  
Now's the time when I'll get my kicks  
Cause the time is comin' soon  
When I'll need another fix
