

## Don't Make Promises

Scott McKenzie

It seems the songs we're singing are all about tomorrow  
Tunes of promises you can't keep  
Every moment bringing the love I can only borrow  
You're telling me lies in your sleep

Do you think I'm not aware of what you're saying  
Or why you're saying it?  
Is it hard to keep me where you want me staying?  
Don't go on betraying it

Don't make promises you can't keep

We had a chance to find it, our time was now or never  
You promised me things that I need  
But then the things behind it took away the chance forever  
You're telling me lies in your sleep

Do you think I'm not aware of what you're saying  
Or why you're saying it?  
Is it hard to keep me where you want me staying?  
Don't go on betraying it

Don't make promises you can't keep  
Don't make promises you can't keep
