

# Bouncer See Bouncer

Scott Walker

Spared  
I've been spared  
all the nickling  
all the dimeing

Spared  
I've been spared  
all the powder  
on a trumpet of Gabriel

Don't play that song for me  
you won't play that song for me

The riff with the swaddling hair  
Those sisters who never broke us  
The link missing at the rear  
and the halo, halo of locust

Mama danced four feet away  
Papa danced four feet away  
in the rubbing and fusing  
the sealing and pivoting  
gotta dance four feet away

Spared  
I've been spared  
All the handle a body could handle

Spared  
I've been spared  
All the powder on a Magdalene Mary

Don't play that song for me  
you won't play that song for me

Those threads you would never wear  
The sobbing that just might choke us  
Those tooth fairies wait till they get here  
and the halo, halo of locust

I love this season without it's cleft  
left hook to the right hook  
right cross to the left

I love this season this very night  
right cross to the left foot  
left hook to the right

Mama danced four feet away  
Papa danced four feet away  
in the rubbing and fusing  
the sealing and pivoting  
gotta dance four feet away
