

Stormy

Scott Walker

You were the sunshine, baby
Whenever you smiled
But I call you Stormy today

All of a sudden
That ole rain's fallin' down
And my world is cloudy and gray
You've gone away

Oh Stormy,
Stormy, Stormy, Stormy
Bring back that sunny day

Yesterday's love
Was like a warm summer breeze
But, just like the weather you changed
Now things are dreary, baby
And it's windy and cold
And I stand alone in the rain
And I'm callin' your name

Yeah Stormy,
Stormy, Stormy, Stormy
Bring back that sunny day

Oh, my storm
Come on back and storm
Come on back and bring back that sun again

I need you Stormy, Stormy, Stormy
Stormy
Bring it back, bring that sunny day, bring that sunny day
Bring that sunny day
