

## Son

Scott Weiland

Coolness is staring at that sun  
Coolness is driving with my son  
Time and time again I'm not the man  
Time and time again I'm not the one

Now got to sleep you little child of mine  
I wish I had the beauty you hold inside  
Now go to sleep you little boy of mine  
You make the world a better place to find

Coolness is staring at that sun  
Coolness is driving with my son  
Time and time again I'm not the man  
Time and time again I'm not the one

Now got to sleep you little child of mine  
I wish I had the beauty you hold inside  
Now go to sleep you little boy of mine  
You make the world a better place to find

Ah  
Now got to sleep you little child of mine  
I wish I had the beauty you hold inside  
Now go to sleep you little boy of mine

You make the world a better place to find  
Ah
