

# Buzzin'

Scotty McCreery

Bonfire burnin'  
July beach  
Radio is crankin'  
You're dancin' here with me

Friends are laughin'  
Howlin' at the moon  
We start sneakin'  
Off behind the dunes

Some like to sip, some like to chug  
Some like to dip, some light one up  
Everybody doin' what they gotta do  
I got you

I don't need none of them vices  
To put my head up in the clouds and get me flyin'  
All I need is just a touch of your sweet lovin'  
To get me buzzin'

Blood starts racin'  
Fever pitch  
The moment I start tastin'  
Your intoxicating kiss

Some like to sip, some like to chug  
Some like to dip, some light one up  
Everybody doin' what they gotta do  
I got you

I don't need none of them vices  
To put my head up in the clouds and get me flyin'  
All I need is just a touch of your sweet lovin'  
To get me buzzin'

When the sunrise  
Starts breakin' through  
I won't be lookin' for no coffee  
'Cause I got, I got you

I don't need none of them vices  
To put my head up in the clouds and get me flyin'  
All I need is just a touch of your sweet lovin'

No I don't need none of them vices  
To put my head up in the clouds and get me flyin'  
All I need is just a touch of your sweet lovin'  
To get me buzzin'  
To get me buzzin'

Some like to sip, some like to chug  
Some like to dip, some light one up  
Everybody doin' what they gotta do, oh girl  
But I got you
